3. Gothenburg – Sweden´s second biggest city

Date: Thursday 13th June, 13.00-16.00

Place: Gothenburg

Part of the official UITP-program

Organisation: Västtrafik (PTA in Gothenburg), Volvo and Transdev

Take a boat trip in the lake Mälaren with SL and Transdev

Blidösundsbolaget

Join us in a trip with a new built boat that is used for daily commuting between Ekerö and Stockholm. On board you will be able to look in the boat and listen to the story of commuting boats in Stockholm and Transdev´s work for more environmental friendly ferry traffic, while experiencing Stockholm from the waterside.

Date: Sunday 9th June

Location: Klara Mälarstrand (Stockholm City Hall)

Time: 10.00-12.00 (2h)

Number of participants: 60

More information on UITP´s website:

<https://uitpsummit.org/visits/take-a-boat-trip-in-lake-malaren/>

Registration

Blidösundsbolaget is part of Transdev Group since 2018 and is today one of the biggest ferry companies in the Stockholm area.

Discover one of Sweden ´s biggest electric bus fleet

With a total of 12 BYD electric buses, Eskilstuna is today one of the leading cities in term on electromobility in Sweden. Join us and discover the vehicles, the depot and talk with the local stakeholders that are part of this journey.

Date: Thursday 13th June

Location: Eskilstuna

Time: 10.00-13.00 (3h)

Number of participants: 25

A Transdev couch will pick up the participants at Stockholm central station at 9.00 (1h trip to Eskilstuna) and bring back the participants to Stockholm at 14.00

Last day for registration was May 20th

Sweden ´s vice-Prime Minister, Isabella Lövin visited the operations in Eskilstuna in February 2018. Here with Gunnar Schön, CEO for Transdev Sweden.

Gothenburg – Sweden´s second biggest city

Västtrafik, the PTA in Gothenburg region, invites you to a guided tour in Sweden´s second biggest city, starting with a ride on an electric hybrid bus to the modern travel center Stenpiren. From Stenpiren, we will take a ferry operated by Styrsöbolaget, which is part of Transdev Group since 2004, across the river to Lindholmen innovation Center, where you will visit the indoor bus stop and charging station Teknikgatan. From Teknikgatan, a fully electric BRT operated by Transdev will take you back to the city centre, finishing our day in one of the tallest buildings in Gothenburg, the Lipstick building, overlooking the city. There you will learn about Gothenburg´s plans on a fully integrated cable car in the public transport system.

Date: Thursday 13th June

Location: Gothenburg

Time: 13.00-16.00 (3h)

Number of participants: 2×25

More information on UITP´s website:

<https://uitpsummit.org/gothenburg/>

Each participant will take in charge its trip between Stockholm and Gothenburg

Registration

Transdev is today one of the biggest public transport operator in Gothenburg, operating several bus line which 2 are electrical and operating all the ferries with its subsidiary Styrsöbolaget.
